

## Get Organized! Kaikkien yliopistolaisten yhteinen syystapahtuma / Event for the entire University community

The University community is made by its members. The professional associations and the Student Union of Tampere University work to ensure the well-being of the community and are an effective and open path for each member to have an impact on life at the University. By getting organized you will have a say in the direction in which we develop our community and can make sure your interests are looked after.

Join us on October 2 and get to know the people and associations which operate on the City center, Kauppi and Hervanta campuses! At the seminar you will hear perspectives from Members of the European Parliament, academics, chief shop stewards and our expert panelists.

Additionally, you will get to test your knowledge of employee rights on the awesome mobile orienteering course on-campus (in teams of 2-5 people). The participation codes are distributed at the seminar. We offer free coffee and pastry for the first 100 participants at Juvenes (coupon). Each team also takes part in a draw to win a basket of treats!

Grab your friends and colleagues and sign up by September 27 at
